www.superceramiccoating.com

QUALITY DOESN'T HAVE TO COME WITH A **HIGH PRICE TAG**

2 YEARS GUARANTEE

Unlock the realm of premium
automotive coatings at Affordable
Prices

In the world of ceramic coatings, there's a common misconception that higher price equals better quality. But at Super Ceramic Coating, we're challenging this notion. We deliver professional-grade ceramic coatings that provide superior protection and brilliant shine, all without the premium price tag. Experience the perfect blend of affordability and excellence with our range of ceramic coatings.

OUR PRODUCTS

Super Ceramic Coating

~~₹1450~~ ₹ 780 + GST

The all-in-one solution can be applied to paint, plastic, leather, and fiber surfaces. However, the other coatings are designed exclusively for each surface to provide greater durability.

PPF Ceramic Coating

~~₹1450~~ ₹ 780 + GST

Designed to be applied on the PPF (Paint Protection Film) surface, creating a protective layer that significantly enhances the durability and longevity of the PPF.

Matte Ceramic Coating

~~₹1450~~ ₹ 780 + GST

The Matte Ceramic Coating DIY Kit offers a specialized solution for preserving the aesthetic and integrity of matte and satin finishes on vehicles.

OUR PRODUCTS

6

Graphene Coating
Detailers edition

~~₹ 2800~~ ₹ 1900 + GST

The strongest coating available on the market, it is the latest trend in the detailing space, offering superior protection and enhanced durability.

4

10H Ceramic Coating
Detailers edition

~~₹ 1800~~ ₹ 1200 + GST

The Super Ceramic 10H Detailers Edition Kit offers efficient vehicle paint protection with a single layer application, saving time and material. In the detailing business, time is money.

5

**Super ceramic Fiber,
Plastic & Leather Coating**

~~₹ 1450~~ ₹ 780 + GST

Designed for vehicle interiors, such as fiber, plastic, vinyl, and leather. It forms a protective layer that repels water, food, and beverage spills, making cleaning easy and preventing fading, cracking, and peeling.

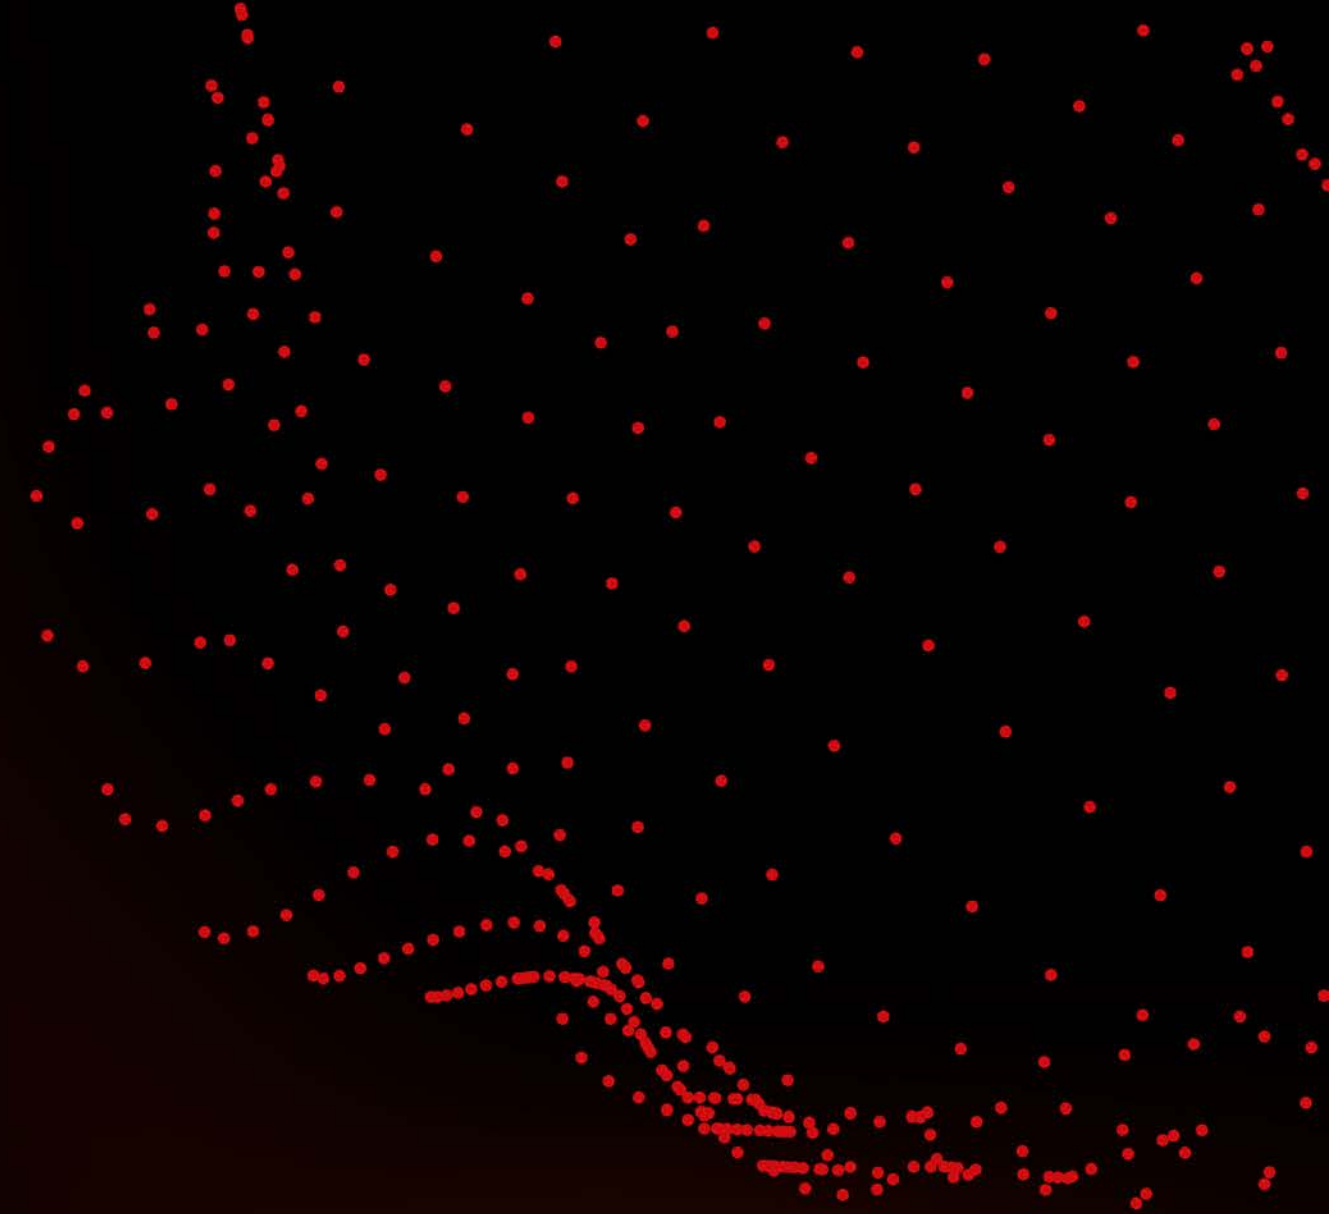

The Ultimate **PROTECTION.**

Utilizing the latest in nano-technology, our scratch-resistant ceramic coating forms a strong glass-like protective layer above your paint.

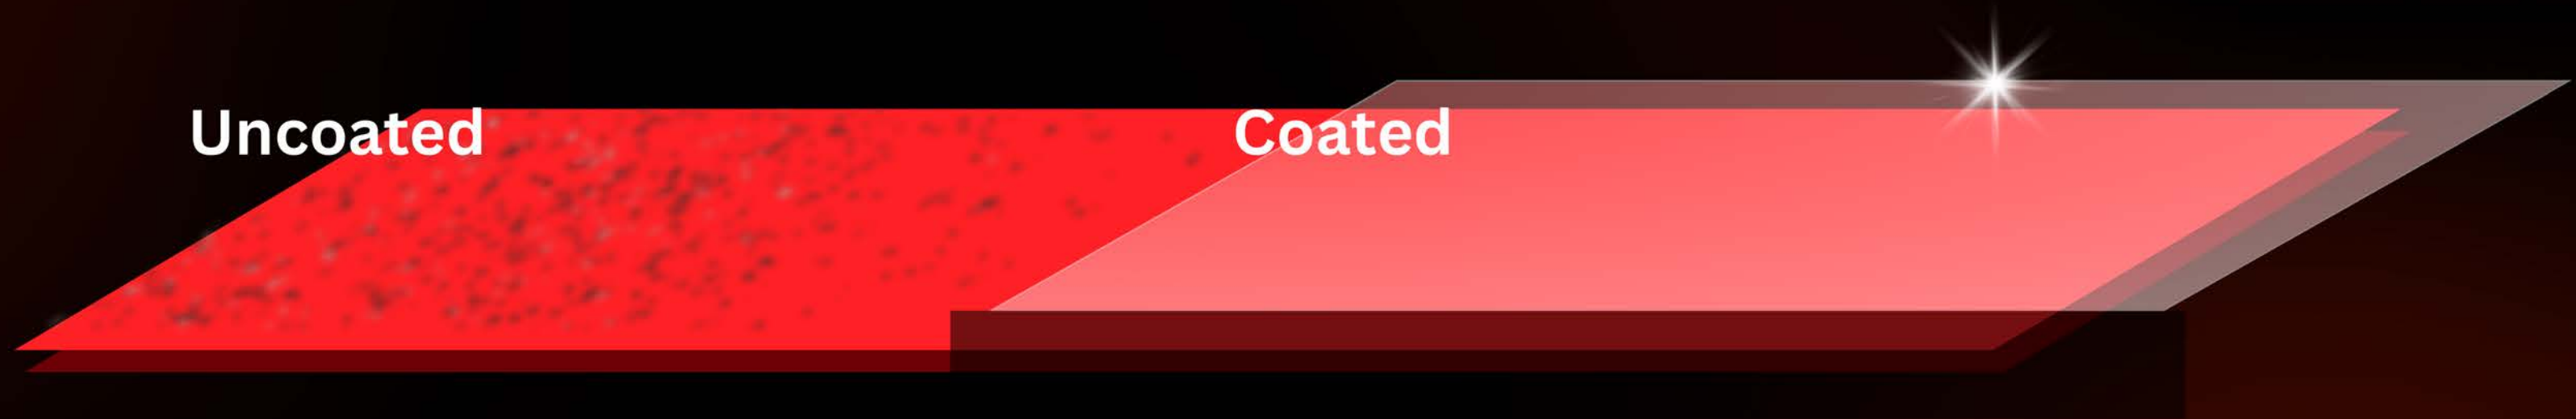

Nano Technology

The word "Nano" refers to the size of the molecules or particles in the coating itself. These particles range from 80-100 nano-meters. Doesn't mean a lot to most people but to put it to scale there are 25 million nano-meters in an inch.

Because the particles are so small, when applied to a surface, they seal all the pores making the surface hydrophobic (water-repellent), but also resistant to UV, scratches, chemicals, extreme heat and even graffiti.

Difference between **super ceramic coated** and uncoated vehicle paint.

*The coated surface stays **shiny and protected**
for at least 2-3 years.*

When zoomed in closely.

Uncoated

*Dirt and Pollutants sticks
in paint pores*

Coated

*Dirt and Pollutants
repels off paint*

First Super Ceramic Coated Dominar 250 on Youtube | Review | How to use? @SuperCeramicCoatingIndia

D250_rider · 380 views · 10 days ago

01

Wrap 1 small applicator cloth tightly around the sponge.

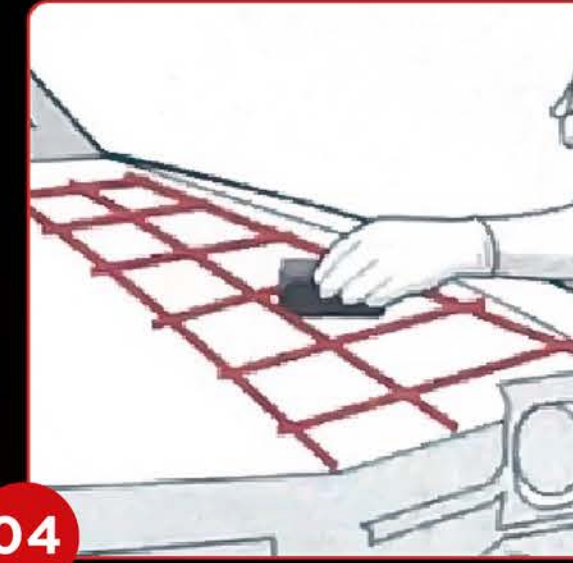

02

Shake bottle then apply several drops (10-12) to saturate the cloth

03

Wipe a thin layer across the car surface. First horizontally and then vertically for an even application.

04

Continue to spread in a criss cross pattern until you have completely covered the section. Add drops as you go.

05

Let the coating sit generally between 1-5 min then remove the residue by lightly buffing with a microfiber towel.

06

Once done, process to apply and then buff the coating 1 body part at a time to the rest of the car/ motorcycle.

PRICING & AVAILABILITY

Super Ceramic Coating's products offer competitive pricing without compromising on quality. For our detailers, we also offer special bulk pricing and benefits. Our products stand on par with those of global giants in terms of performance and durability, yet they come at a fraction of the cost. This means two key advantages for you as a detailer:

Higher Margins: With our cost-effective solutions, you can enjoy a higher profit margin on each job, boosting your bottom line without compromising on quality.

Competitive Pricing: Alternatively, you can pass the savings on to your customers by offering competitive prices. This could attract a larger customer base, making your detailing service more accessible without sacrificing the quality of work.

With Super Ceramic Coating, increase your profitability while delivering a top-notch detailing service.

Our partner program offers exciting benefits including referral bonuses, co-branding opportunities, and exclusive access to our latest products."

FAQ

What should I use to apply Super Ceramic Coating?

The suede cloth should always be used for application. These cloths are designed for one use only, and should be disposed of upon completion.

How long does it take to apply Super Ceramic Coating?

It depends on the size of the car, how many layers, and the experience level of the installer. You want to be sure you do not rush the application. One to three hours is typical for the ceramic coating application itself.

Is one layer of coating enough to provide protection?

Yes, one layer is enough. However, multiple layers of ceramic coating will not harm the clear coat or system and will provide even longer durability.

How do I wash my car to maintain the warranty or in general?

It is recommended to hand wash your car for the best longevity, and at minimum, use touch-less/brush-less car washes to prevent premature wear.

FAQ

Do I need to deposit money for bulk orders?

Yes, Cash On Delivery (COD) is not available for bulk orders due to the high COD fee. However, should you prefer to proceed with COD, the associated charges will be borne by you.

How much time does it take to deliver bulk orders?

The estimated delivery time for bulk orders ranges between 4 to 7 days, ensuring timely arrival for your business needs.

Do I get bulk discounts for other products?

Indeed, we offer attractive discounts on bulk orders, providing a cost-effective solution for your inventory needs. The discount rate is incrementally favorable with larger order quantities.

FAQ

Is there a minimum quantity for bulk orders?

Yes, to qualify for a bulk order, a minimum quantity of 10 pieces (MOQ: 10 pcs) is required, facilitating substantial orders for our detailers.

Can I purchase and sell at MRP in my car accessories shop?

Yes, you are allowed to purchase and resell the products at the Maximum Retail Price (MRP) in your car accessories shop, adhering to standard retail practices.

Can you send products without labels?

Yes, we can provide the products without labels, catering to your preferences for a more customized presentation or for private labeling purposes.
